For registration, transport and hotels: www.facial-plastic-surgery.eu

Anatomic dissections (Apr 9 and 10)
A full day anatomic workshop surgical rejuvenation is offered. The participants will be taken through the key procedures of surgical rejuvenation, including face lift, endoscopic brow lift and endoscopic forehead lift. On Apr 10 a full day anatomic workshop rhinoplasty is offered. The participants will be guided through the key approaches and maneuvers in rhinoplasty. Two participants share one fresh frozen cadaveric head with fully preserved nose for both workshops.

Workshop auricular reconstruction (Apr 10)
A full day workshop auricular reconstruction is offered on April 9 and 10 (both are identical). Ralph Magritz, one of the world’s leading experts, will teach a limited number of participants the carving of an auricular frame - rib cartilage is utilized.

Workshop hair transplantation (Apr 10)
An introductory workshop hair transplantation is offered on Apr 10. Carving of a hairline on cadaveric heads. Three global experts, Bessam Farjo, Nilofer Farjo and guest country India, will teach a limited number of participants the carving of a hairline - HT. The introductory lectures will take place on Apr 10. Grafting is practiced on cadaveric heads.

Dear Colleagues and Friends:

Holger Gassner

Outstanding faculty from around the world will train you in:

• The latest advances in reconstructive surgery: Reliable solutions with long term follow-up, presented by seasoned experts.
• Expert techniques in facial rejuvenation: Balanced combination of traditional and open techniques, basic and advanced septoplasty, and advanced rhinoplasty.
• The latest advances in reconstructive surgery: Nasal reconstruction, facial reanimation, auricular reconstruction, the "Finesse Lecture": Facial Transplantation.
