"Live Surgery"
"Anatomic Dissections
May 10th"

Program Directors: Holger G. Gassner, Abel-Jan Tasman
Cooperating Department: ORL, University of Regensburg,
Chair: Prof. Dr. Ch. Bohr
Organizing Committee: Darinka Hanga, Frank Haubner,
Rita Nunes, Franziska Schwan
Live Surgery: Transmission from the „Finesse Center for Facial Plastic Surgery“
Anatomic Dissections: Fresh frozen dissections
"Endonasal and open techniques", Dept. of Anatomy, University of Regensburg, Chair: Prof. Dr. E. Tamm

For registration, transport and hotels: www.facial-plastic-surgery.eu

Faculty

Bohr, Christopher, Regensburg, Germany
Constantian, Mark B., Nashua, NH
Gassner, Holger G., Regensburg, Germany
Hanga, Darinka, Lienz, Austria
Haubner, Frank, Munich, Germany
Pastorek, Norman, New York, NY
Sadick, Haneen, Mannheim, Germany
Schwan, Franziska, Regensburg, Germany
Tasca, Ignazio, Imola, Italy
Tobias, Geoffrey, New York, NY
Tasman, Abel-Jan, St. Gallen, Switzerland

Industry support

STORZ
KARL STORZ — ENDOSKOPES

Disclosure:
This course is generously supported by Karl Storz with € 7,500 and supply of equipment for live surgery and dissections.
Dear Colleagues and Friends:

The world of rhinoplasty seems to experience an important shift back towards the endonasal operation. After the great success of the Symposia "Mastering Endonasal Rhinoplasty" in New York City 2018 and in Miami 2019, we are proud to present the first major scientific event solely dedicated to endonasal rhinoplasty in Europe. We are honored to include globally recognized experts in the program.

You will be presented with coherent solutions through deformity - oriented, encompassing presentations. The unsurpassed suitability of the endonasal operation to maximize preservation of skeletal structures and soft tissue compartments will be demonstrated. Current controversies including management of the dorsum, extent of required exposure and indications for costal cartilage grafting will be critically discussed. Further aspects to be highlighted will include:

- understand and meet the patient’s desires
- achieve naturally appearing results
- maintain a soft feeling nasal tip
- maximize patient comfort
- minimize tissue trauma and graft harvest
- utilize local anaesthesia and sedation in rhinoplasty

A full day of anatomic dissections will allow to practice all endonasal and open rhinoplasty approaches and techniques under expert mentoring.

Basic and advanced concepts will be presented, applicable for younger colleagues, surgeons who would like to add endonasal approaches to their spectrum, and for the expert.

Regensburg, is one of Germany’s most wonderful medieval towns, relaxing yet vibrant. The town is located close to Munich. Travel is easy to Munich airport, and hotel accommodation is affordable.

Share the enthusiasm of over 1500 colleagues who have attended the past Regensburg conferences and be part of an outstanding experience.

Please join us for this unique event and enjoy the beauty of our city.
