The International Webinar:

Endonasal Rhinoplasty XI

Sunday June 13th, 2021 | 12:00 LA | 13:00 Denver | 14:00 Chicago | 15:00 NYC | 19:00 London | 20:00 Berlin

Dear Friends and Colleagues,

This webinar series is designed to portray the unique characteristics of the endonasal rhinoplasty operation and its fundamental differences with open rhinoplasty concepts.

As selection of scientific programs is increasingly determined by webinar attendance in the post-covid era, a substantial degree of interest in endonasal concepts is being unmasked: This endonasal webinar series has attracted up to 1052 attendees per session.

The present webinar gathers experts to specifically discuss.
Discussion will be case-based and focused.

Total duration is 180 minutes.

Panelists: Javier Beut, Matthew Bridges, Mark Constantian, Holger Gassner, Norman Pastorek, Abel-Jan Tasman.

German BLAEK credits will be available upon request.

Best regards,

Abel-Jan Tasman
Holger G. Gassner
