Venue May 13th–14th

We are fortunate to stage this event in the breathtaking surroundings of the beautiful "Herzogssaal" in the heart of Regensburg. Hotels "Bischofshof", Goliath", and "Achat" are in immediate walking distance.

Address: Domplatz 3, 93047 Regensburg

Anatomic Dissections May 15th

Per Regensburg tradition, dissections will be on fresh frozen specimen of excellent quality. State of the art instrumentations will be provided with compliments of Karl Storz Company.

Prices

- Regular Course (May 13th–14th): € 575
- Anatomic Dissections
(May 15th, 2 participants per head): add. € 1075
- Course Dinner (May 13th, per person): € 100

Registration includes lunch and coffee on site, pre-congress Cocktail get together.

Hotels, Transport, Registration

Fly into Munich Airport; door to door shuttle transfer can be booked. Beautiful and moderately priced 4 star Hotels in 1 min walking distance in the heart of the old town. For all information see: www.facial-plastic-surgery.eu

May 13th–15th, 2022

The European Course in Endonasal Rhinoplasty – Regensburg 2022

Ch. Bohr
H. Gassner
M. Goncalves
N. Pastorek
J. Tasman

"Live Surgery"
"Anatomic Dissections"

Program Directors: Holger G. Gassner, Abel-Jan Tasman

Cooperating Department: ORL, University of Regensburg,
Chair: Prof. Dr. Ch. Bohr

Organizing Committee: Louise de Lange, Rita Nunes,
Franziska Schwan

Live Surgery: Transmission from the „Finesse
Center for Facial Plastic Surgery“

Anatomic Dissections: Fresh frozen dissections,
Dept. of Anatomy, University of
Regensburg, Chair: Prof. Dr. E. Tamm

The European Course in Endonasal Rhinoplasty – Regensburg 2022

Dear Colleagues and Friends:

The world of rhinoplasty experiences an important shift towards the endonasal operation. Patients are increasingly requesting soft, minimally invasive techniques and conservative approaches. After The successful Symposia "Mastering Endonasal Rhinoplasty" in New York City and in Miami were followed by a series of globally recognized webinars on Endonasal Rhinoplasty. In 2020, the present course was the first to present the concept of dedicated endonasal events in Europe.

We are honored to include globally recognized experts in the program. You will be presented with coherent solutions through deformity – oriented, encompassing presentations. The unsurpassed suitability of the endonasal operation to maximize preservation of skeletal structures and soft tissue compartments will become evident. Current controversies including management of the dorsum, extent of required exposure and indications for costal cartilage grafting will be critically discussed. Further aspects to be highlighted will include:

- understand and meet the patient's desires
- achieve naturally appearing results
- maintain a soft feeling nasal tip
- maximize patient comfort
- minimize tissue trauma and graft harvest
- utilize local anaesthesia and sedation in rhinoplasty

A full day of anatomic dissections will allow to practice all endonasal (and open) rhinoplasty approaches and techniques under expert mentoring. Basic and advanced concepts will be presented, which will be applicable for the younger colleagues, for those surgeons who intend to add endonasal approaches to their spectrum, and for the expert endonasal surgeon.

Regensburg, is one of Germany's most wonderful medieval towns, relaxing yet vibrant. The town is located close to Munich. Travel is easy through Munich airport, and hotel accommodation is affordable. Share the enthusiasm of over 1500 colleagues who have attended the past Regensburg conferences.

Please join us for this unique event and share a memorable time.

Holger G. Gassner
Abel-Jan Tasman

Preliminary Program

Friday	May 13 th	Moderator
08:15–08:30	Welcome address	Bohr, Gassner, Tasman
08:30–08:40	EBCFPRS examination and certification	Gassner, Tasman
08:40–09:00	Surgical anatomy of rhinoplasty	Bohr
09:30–12:00	Live Surgery	Pastorek, Tasman
12:00–13:00	Lunch Break	
13:00–13:20	Endonasal approaches and their indications	Schwan
13:20–13:40	Rhinoplasty under sedation: Techniques, indications, and limitations	Pastorek
13:40–14:00	The Endonasal Complete Release Approach	Hanga
14:00–14:30	The S.O.F.T. Concept	Gassner
14:30–15:00	The spare roof technique: Endonasal management	Goncalves
15:00–15:45	Break	
15:45–16:15	Middle vault reconstruction	Tasman
16:15–16:45	The over-projecting tip	Pastorek
16:45–17:15	The nasal valve	Haubner
17:15–17:45	Augmenting the dorsum	Tasman
19:30	Course Dinner	

Preliminary Program

Saturday	May 14 th	Moderator
09:00–10:00	Live Surgery: Results from past courses	Pastorek, Gassner, Tasman
10:00–10:30	The asymmetric nose	de Lange
10:30–11:00	The under-projecting nose	Pastorek
11:00–11:30	Break	
11:30–12:00	Minimally invasive techniques: Literature review and a critical appraisal of terminology	Tasman
12:00–13:00	Lunch	
13:00–13:30	Controlling dorsal irregularities	Goncalves
13:30–14:00	Management of the wide nose	Gassner
14:00–14:30	Break	
14:30–15:00	Management of the alar base	Sadick
14:30–16:30	Faculty Cases: Prevention and management of suboptimal outcomes	Tasman, Gassner
Sunday	May 15 th	
09:30	Registration Department of Anatomy	
10:00	Dissections	
12:30	Lunch	
16:00	End of dissections and course
