## The European Course in Endonasal Rhinoplasty – Regensburg 2022

### Dear Colleagues and Friends:

The world of rhinoplasty experiences an important shift towards the endonasal operation. Patients are increasingly requesting soft, minimally invasive techniques and conservative approaches. After The successful Symposia "Mastering Endonasal Rhinoplasty" in New York City and in Miami were followed by a series of globally recognized webinars on Endonasal Rhinoplasty. In 2020, the present course was the first to present the concept of dedicated endonasal events in Europe.

We are honored to include globally recognized experts in the program. Due to important reasons, Norman Pastorek will participate in the program through live video feed. You will be presented with coherent solutions through deformity – oriented, encompassing presentations. The unsurpassed suitability of the endonasal operation to maximize preservation of skeletal structures and soft tissue compartments will become evident. Current controversies including management of the dorsum, extent of required exposure and indications for costal cartilage grafting will be critically discussed. Further aspects to be highlighted will include:

- understand and meet the patient's desires
- achieve naturally appearing results
- maintain a soft feeling nasal tip
- maximize patient comfort
- minimize tissue trauma and graft harvest
- utilize local anaesthesia and sedation in rhinoplasty

A full day of anatomic dissections will allow to practice all endonasal (and open) rhinoplasty approaches and techniques under expert mentoring. Basic and advanced concepts will be presented, which will be applicable for the younger colleagues, for those surgeons who intend to add endonasal approaches to their spectrum, and for the expert endonasal surgeon.

Regensburg is one of Germany's most wonderful medieval towns, relaxing yet vibrant. The town is located close to Munich. Travel is easy through Munich airport, and hotel accommodation is affordable. Share the enthusiasm of over 1500 colleagues who have attended the past Regensburg conferences.

Please join us for this unique event and share a memorable time.
